

New Project Information

The City of Rocklin is processing the below referenced application(s) for project approval. The request is now being reviewed for compliance with the requirements and regulations of relevant City, State, and Federal agencies, and Utility providers. Once any issues have been resolved a hearing date will be set and public notice provided to alert neighbors and interested parties of the hearing date, availability of project information, the opportunity to comment on the project.

Application Received: January 21, 2021

Project Name and Requested Approvals:

GREENBRAE PARCEL MAP

Tentative Parcel Map – DL2021-0001

Staff Description of Project:

Request for approval to subdivide one (1) approximately 17.8-acre parcel into three (3) parcels. Resultant Parcel 1 would be 1.27 acre, Parcel 2 would be 2.3 acres, and Parcel 3 would be 14.2 acres. The proposed parcel configurations are designed to accommodate the remodeling of an existing home on Parcel 1, a future custom home on Parcel 2, and potential future development on Parcel 3, which has not yet been determined. Any future development on Parcel 3 beyond construction of a single custom home would require approval of a separate project.

Location:

The project site is located at 4600 Greenbrae Road. The Assessor's Parcel Number (APN) is 046-030-059.

Existing Land Use Designations:

The property is designated Low Density Residential (LDR) and Recreation-Conservation (R-C) in the Rocklin General Plan is zoned Planned Development Residential, 1.5 Dwelling Units Per Acre (PD-1.5) and Open Area (OA).

This project ____ **does** / **XX** **does not** require modification or change of the land use designations and regulations currently applicable to the project site.

Compliance with the California Environmental Quality Act:

A preliminary review of this project pursuant to the California Environmental Quality Act (CEQA) has tentatively identified a Notice of Exemption as the appropriate level of review for this project.

Applicant & Property Owner:

The property owners are Andre Petrin and Elena Demyanik-Petrin. The applicant is Ubora Engineering & Planning, Inc. (Dave Berry).

Pre-Application Meeting Requirements:

It is required that a pre-application meeting be held with a Staff Planner prior to submitting most applications for planning entitlements and permits. The purpose of the pre-application meeting is to expedite application processing by enabling staff to work with the applicant to assure that the officially submitted application materials are in the proper format and that the applicant understands the City of Rocklin's goals, policies, and ordinances that may affect the project. A copy of these and other planning provisions is available at the applicant's request.

Generally, two sets of preliminary plans and a written description of the proposed project should be brought with the applicant to the pre-application meeting. To schedule this meeting, please contact a Staff Planner at the Rocklin Community Development Department by calling (916) 625-5160.

DATE OF PRE-APPLICATION MEETING: **12-21-2020 - Comments sent**

NOTIFICATION OF OWNERS OF MINERAL RIGHTS

Government Code section 6509a(a)(2) states that if the Subdivision Map Act requires notice to be given pursuant to Section 65091, in addition to noticing the surrounding property owners, notice must also be given to anyone who has filed with the County recorder's office a "notice of intent to preserve the mineral right pursuant to Section 883.230 of the Civil Code" on the subject property.

Therefore, mailing labels must be provided with this application for any owner of a mineral right pertaining to the subject real property who has recorded a notice of intent to preserve the mineral right pursuant to Section 883.230 of the Civil Code (Subdivision Map Act Section 65091(a)(2)).

See page 24 of this application for instructions on how to submit mailing labels.

Section 65091(a)(2)

"(2) When the Subdivision Map Act (Div. d 9commencing with Section 66410)) requires notice of a public hearing to be given pursuant to this section, notice shall also be given to any owner of a mineral right pertaining to the subject property who has recorded a notice of intent to preserve the mineral right pursuant to Section 883.230 of the Civil Code."

There **are / are not** (circle one) owner(s) of record of preserved mineral rights on the subject

property and I, Andrey Perrin, the applicant or applicant's representative, **have /**

have not (circle one) provided the name and mailing address of record for any and all owners of

mineral rights pursuant to Section 883.230 of the Civil Code.

**STATE OF CALIFORNIA
DEPARTMENT OF FISH AND GAME
FILING FEES**

In 1990, the State adopted a fee pursuant to AB 3158 for the review of environmental documentation by the State Department of Fish and Game. Subsequently, in 1991, the fees were challenged. Then, in June 1995, the Department of Fish and Game instructed the jurisdictions to stop collecting fees. Following a great deal of court action and in a memorandum dated February 26, 1996, the State Clearinghouse, Office of Planning and Research, stated that the fees must again be collected.

On September 29, 2006, Senate Bill 1535 was passed increasing the amounts of filing fees collected by the Department, and requires the Department to adjust the fees annually pursuant to Fish and Game Code Section 713.

As of January 1, 2018, State law requires all applicants who have a Notice of Determination filed for a Negative Declaration to pay a \$2,280.75 fee and those with a Notice of Determination for an Environmental Impact Report to pay a \$3,168.00 fee. Both types must pay an additional \$50.00 administrative fee making the total fees \$2,330.75 and \$3,218.00 respectively. Applicants whose projects require the filing of a Notice of Exemption will need to pay a \$50.00 administrative fee. The City will notify each applicant which of the fees must be paid.

PLEASE NOTE: Effective January 1, 2008, the fee exemption for projects determined to have a *De Minimis Impact Finding* has been eliminated. (Section 711.4 Fish and Game Code).

The Fish and Game filing fee must be paid prior to the filing of the Notice of Determination with the County Clerk. Since the CEQA law requires a Notice of Determination to be filed with the County within 5 days of an action by the City, all applicants must remit to the City the necessary fee amount no later than the day of the final scheduled public hearing for the proposed project.

PLEASE MAKE ALL CHECKS PAYABLE TO PLACER COUNTY.

If you have any questions regarding this matter, please do not hesitate to contact the Planning Department at (916) 625-5160. Upon review of the above, please sign and return this document with your application.

I, Andray Perrin, the applicant or applicant's representative, have read the information above and understand its meaning.

HAZARDOUS WASTE AND SUBSTANCES STATEMENT

Pursuant to California Government Code Section 56962.5, I have consulted the Hazardous Waste and Substances Sites List (Cortese List), consolidated by the State of California, Environmental Protection Agency and find that;

The project, including any alternatives, _____ is, X is not (check which applies) located on a site which is included on the Hazardous Waste and Substances Sites List (Cortese List). If on the list, provide the following information:

Regulatory identification number: _____ Date of list: _____

Type of problem: _____

I declare under penalty of perjury of the laws of the State of California that the foregoing is true and correct.

Dated: 10/26/2020

Applicant: 

Applicants can verify this information by reviewing the Hazardous Waste and Substances Sites List (Cortese List), available for review at the City of Rocklin Planning Department counter, or at the California Department of Toxic Substance Control web site:

<http://www.calepa.ca.gov/SiteCleanup/CorteseList/default.htm>

MITIGATION FOR AIR QUALITY IMPACTS

The US Environmental Protection Agency (EPA) and the California Air Resources Board (CARB) have established air quality standards, referred to as the National Ambient Air Quality Standards (NAAQS) and the State Ambient Air Quality Standards (SAAQS) respectively. The federal Clean Air Act and State Clean Air Act both require that areas in violation of the ambient air quality standards adopt strategies to attain these standards. The Placer County Air Pollution Control District (APCD) has primary responsibility for planning and maintenance and/or attainment of air quality standards within Placer County. California is divided into 15 air basins for the purpose of monitoring air quality. Placer County is included in the Sacramento Valley Air Basin. Areas may be classified as attainment, non-attainment, or unclassified with regard to the adopted standards. The unclassified designation is assigned in cases where monitoring data is insufficient to make a definitive determination. Under the federal standards, all of Placer County, including Rocklin, is designated as non-attainment for ozone. All other pollutants are designated unclassified in Rocklin. Under the state standards, South Placer, including Rocklin, is designated as non attainment for ozone and PM10 and unclassified for hydrogen sulfide and visibility reducing particulate.

The project would have the following short-term construction impacts, if not mitigated:

- a. Construction activities, including grading, would generate a variety of pollutants, the most significant of which would be dust (PM10). This would exacerbate the existing PM10 non attainment condition if not mitigated.
- b. Construction equipment would produce short-term combustion emissions, and asphalt materials used for streets and driveways would produce pollutants during curing.

The mitigation measures listed below will reduce the short term impacts to less-than-significant. In the long-term, vehicle trips to and from the project site would generate Carbon Monoxide and ozone precursor emissions, thereby contributing to the non-attainment status of the local air basin. These incremental and cumulative adverse air quality impacts cannot be completely mitigated. However, these impacts were anticipated by the City of Rocklin General Plan, and were addressed through the 1991 Rocklin General Plan EIR and the North Rocklin Circulation and Traffic Study. Findings of overriding significance were adopted for the unmitigatable and unavoidable significant air quality impacts.

Therefore, I, as the applicant for the proposed project, agree that the mitigation measures listed below are incorporated as a part of my project description in order to mitigate for the short term impacts.

MITIGATION FOR AIR QUALITY IMPACTS (CONT.)

MITIGATIONS

1. The project shall conform with the requirements of the Placer County APCD.
2. Prior to commencement of grading, the applicant shall submit a dust control plan for approval by the City Engineer and the Placer County Air Pollution Control District. The plans shall specify measures to reduce dust pollution during all phases of construction.
3. Traffic speeds on all unpaved road surfaces shall be posted at 25 m.p.h. or less.
4. All grading operations shall be suspended when wind speeds exceed 25 m.p.h.
5. All trucks leaving the site shall be washed off to eliminate dust and debris.
6. All construction equipment shall be maintained in clean condition.
7. All exposed surfaces shall be revegetated as quickly as feasible.
8. If fill dirt is brought to the construction site, tarps or soil stabilizers shall be placed on the dirt piles to minimize dust problems.
9. Apply water or dust palliatives on all exposed earth surfaces as necessary to control dust. Construction contracts shall include dust control treatment as frequently as necessary to minimize dust.
10. Construction equipment shall be properly maintained and tuned.
11. Utilize low emission mobile construction equipment where possible.
12. Open burning of vegetative material is prohibited.

PREVIOUS LAND USES: Describe existing and previous land uses of the site for the last 10 years or more:

SITE CHARACTERISTICS

1. What natural features (trees, rock outcroppings etc.) presently exist on the site?
2. What are the surrounding land uses?
East _____ West _____ North _____ South _____
3. Is the project proposed on land which contains fill or a slope of 10% or more? _____
4. Are there any existing erosion problems? _____
5. Is the site on expansive soils (as defined in Table 18 of the UBC) or immediately adjoining an area subject to slides, liquefaction, slope instability or other related hazards? _____
If so, describe in detail, or refer to attached soils report.
6. Grading, excavating or filling activities - Quantity of cubic yards to be:
 - a. Moved within the site: _____
 - b. Deposited on the site: _____
 - c. Removed from the site: _____
 - d. Disposal site: _____
7. Are there any streams or permanent water courses on the site? _____
Describe: _____
8. Will the proposed project change drainage patterns or the quality of groundwater? _____
If so explain. If not, why not: _____
9. Will the project affect any drainage channel, creek, pond or any other water body? _____
Describe below: _____
10. Is any portion of the property located in a flood plain? _____
If so describe: _____

11. Are there any jurisdictional wetlands or vernal pools on the site? _____
If so how will they be impacted by the project? _____
12. Are there any trees or shrubs on the project site? _____
What types? _____
Are any to be removed or transplanted? _____
State the location of transplant site: _____
State the number & species to be removed: _____
13. Will the project affect the habitat of any endangered, threatened, or other special status species?
14. Will the project result in any new noise source, or will it place new residents in an area of high traffic noise or noise from any other source?
15. What type of equipment will be associated with the project during construction?
- During permanent operation?
16. Describe any air pollutants, other than vehicle exhaust, which would be generated by this project, both during and after construction. Dust particulates are considered pollutants.
17. Will the project produce new sources of dust, ash, smoke, fumes or objectionable odor? _____
If yes, describe the source of the emission, methods to control emissions and means of mitigating those effects on adjacent properties: _____
18. Will the project create any new light source, other than street lighting? _____
If yes, describe below: _____
19. Is this property covered by a Williamson Act contract? _____
20. Has this property ever been used for agricultural purposes? _____
If so, for what purpose and when? _____
21. Does the project involve the use of routine transport or disposal of hazardous materials? _____
22. Are there any known mineral resources of value to the region and the residents of the state located on the site?
If so, what types? _____
23. How close is the nearest school? _____

24. PROPOSED BUILDING CHARACTERISTICS (BOTH RESIDENTIAL AND NON-RESIDENTIAL)

Size of new structure(s) or addition in gross square feet: _____

Building height measured from ground to highest point in feet: _____

Number of floors/stories: _____

Height of other appurtenances (antennas, steeples, mechanical equipment, etc.) measured from ground: _____

Project site coverage: Building _____ sq.ft. _____ %

Landscaping _____ sq.ft. _____ %

Paving _____ sq.ft. _____ %

Exterior building materials: _____

Exterior building colors: _____

Wall and/or fencing material: _____

Total number of off-street parking spaces required: _____ Provided: _____

Total number of bicycle parking spaces: _____

25. Is there any exposed mechanical equipment associated with the project? _____

Location and screening method: _____

26. RESIDENTIAL PROJECTS

Total lots _____

Total dwelling units _____

Density/acre _____

Total acreage _____

	Single Family	Two Family	Multi-Family (More than 2 units)

27. RETAIL, COMMERCIAL, INDUSTRIAL, INSTITUTIONAL OR OTHER PROJECT

Type of use(s): _____

Oriented to: Regional _____ City _____ Neighborhood _____

Hours of operation: _____

Total occupancy/Building capacity: _____

Gross floor area: _____ Number of fixed seats: _____

Number of employees (total): _____ Employees per shift: _____ Number of Shifts: _____

Number of visitors/customers on site at busiest time (best estimate): _____

Other occupants (specify): _____

ALL PROJECTS

28. Approximately how many tons of solid waste will the project produce each year? _____
29. Will the proposed use involve any toxic or hazardous material? _____
Is the project site within 2,000 feet of an identified hazardous/toxic site? _____
Is the project site within 2,000 feet of a school or hospital? _____
If the project involves any hazardous material, explain: _____
30. How many new residents is the project estimated to generate? _____
31. Will the project generate a demand for additional housing? _____
32. What is the current and estimated number of motor vehicles to arrive at the site as a result of the project?
Current: _____ Estimated: _____
33. Could the project increase traffic hazards to motor vehicles, bicyclists or pedestrians? _____
If yes, explain: _____
34. How close is the project to the nearest public park or recreation area? _____
35. What school districts will be affected by this project? _____
36. Describe energy-efficient features included in the project _____
37. Describe how the following services or utilities will be provided:
Power and Natural Gas: _____
Telephone: _____
Water: _____
Sewer: _____
Storm Drainage: _____
Solid Waste: _____
38. Will the project block any vista or view currently enjoyed by the public? _____
39. Are there any known historic or significant building features on or near the site? _____
If so, will the project result in any impact to the building? _____
40. Are there any archaeological features on the site? _____
If so, will the project result in any impact to these features? _____

Project Narrative
4600 Greenbrae Road – Tentative Parcel Map
January 21, 2021

Overview:

Owner proposes to subdivide APN 046-030-059, approximately 17.8 acres, located at 4600 Greenbrae Road, Rocklin, CA. into 3 parcels plus a remainder parcel. The property is currently zoned PD-1.5 with a General Plan designation of LDR. No changes are proposed to these designations.

Existing Site Condition:

The majority of the property is currently undeveloped grassland with the existing PCWA Boardman Canal traversing the southerly, higher elevations of the property. The property contains two existing houses located on the proposed Parcel #1. Oak trees are located at the higher elevations along the southerly most portion of the property, above the Boardman Canal. Drainages traverse the property from south to north ultimately draining under Greenbrae Road via roadway culverts. See attached aerial exhibit.

Proposed Development:

Constraints to development of the property include steep topography and the Boardman Canal along the southerly portions, as well as drainages and wetlands across the lower flat meadows. The proposed parcel configurations are designed to accommodate the remodeling of the existing home on Parcel 1, a custom home site on Parcel 2, and leaving Parcel 3 for future development evaluation.
