## FIRE OPERATIONAL PERMIT APPLICATION

Fire Operational Permits are required under the California Fire Code. Fire Operational permits, when issued, allows the applicant to legally conduct the operation or business permitted for a period of 12 months (permits shall be renewed annually). The Fire Operational Permits have been established to provide a focused survey and inspection of the operation and/or building to help ensure minimum fire and life safety requirements are maintained at an acceptable level.

To initiate the review process, a Fire Operational Permit Application must be completed and submitted for review at the City of Rocklin Fire Department (4060 Rocklin Rd, Rocklin). Required fees are to be paid at time of application and incomplete applications will not be accepted. Once the Fire Operational Permit Application has been deemed complete and applicable fees have been paid, a Fire Department staff member will contact you to set up the inspection.

**Type of Fire Operational Permit (Applicant to check applicable box):**

<input type="checkbox"/> Aerosol Products	<input type="checkbox"/> Exhibit/Trade Shows	<input type="checkbox"/> Lumber Yard/Woodwork
