**REVIEW PERIOD: FEBRUARY 6, 2026 to MARCH 9, 2026**

**PROJECT DESCRIPTION:** The Johnson Springview Pedestrian Bridge Project entails the construction of a new free-span pedestrian bridge over Antelope Creek. The bridge would be approximately 170 feet in length and consist of a single prefabricated truss structure. The new bridge would have a clear width of 10 feet between railings, with an overall structure width of approximately 12 feet. Two feet of freeboard would also be provided above the 100-year base flood elevation. Additionally, the north and south approach embankments would be graded to meet the bridge deck elevation of approximately 228 feet, and the bridge abutments would be installed on either side of Antelope Creek, outside the 100-year floodplain limits. New paved pathways would also be constructed and would connect to both sides of the new bridge.

**PROJECT LOCATION:** The approximately 4.25-acre project site consists of seven parcels within the southern portion of Rocklin in Placer County (Assessor's Parcel Numbers [APNs] 016-020-004-000, 010-010-014-000, 010-040-007-000, -028-000, -034-000, 029-000, and -018-000).
