Maker Faire is about **celebrating learning** and **doing** – not just the finished and perfect end product, but the whole process of making. It's a place to show projects, and share what we're learning with others. It's a cultural event that celebrates our ability to **create, build, invent, tinker** and **make** things that are wonderful. We are pleased to have you joining us for this **FIFTH ANNUAL** event in Rocklin!

## THANK YOU Sponsors

Rocklin Mini Maker Faire is independently organized and operated under license from Maker Media, Inc.
