

**SENIOR BUILDING TRADES WORKER**  
Salary Range: 30 (Public Service Salary Schedule)

**DEFINITION**

Under general supervision or general direction assists with the assignment, planning, scheduling, and review of work performed by the building trades workers; orders supplies and equipment for all City buildings and facilities; conducts inspections of work in process and completed; performs a wide variety of complex and technical building maintenance, repair and installation tasks involving carpentry, plumbing, and electrical trades to improve, maintain and renovate City buildings and facilities; provides complex technical support to the Facilities Maintenance Division; and performs related work as required.

**DISTINGUISHING CHARACTERISTICS**

This is an advanced journey-level, leadworker class in the building maintenance series that is specialized in one or more building trades, including carpentry, plumbing, electrical and/or mechanical work. Incumbents serve as the leadworker responsible for the technical and functional direction of staff; manage projects, in coordination with the Facilities Operations Superintendent, to include procurement, specifications and construction management; perform maintenance and alterations on City buildings and facilities, HVAC and other electrical and mechanical systems; identify and evaluate construction-related problems; and perform installation and repairs on plumbing systems. This class is distinguished from the Building Trades Worker as it functions as a leadworker responsible for providing technical and functional direction to staff, performing the most complex and technical duties, while working under minimal direction and using independent judgment. This class is distinguished from the Facilities Operations Superintendent in that the latter is a second supervisory-level class in the series responsible for organizing, assigning, supervising and reviewing the work of assigned staff in the Facilities Maintenance Division.

**SUPERVISION RECEIVED AND EXERCISED**

Incumbents receive general supervision from the Facilities Operations Superintendent, and may oversee, monitor, schedule, assign, and/or direct the work of lower level personnel.

**ESSENTIAL DUTIES, KNOWLEDGE, AND ABILITIES**

Duties may include, but are not limited to the following:

- Provides technical and functional direction to assigned Building Trades Workers; reviews and controls quality of work; participates in performing maintenance, renovations and improvements to City facilities.
- Assists the Facility Operations Superintendent with planning, scheduling, prioritizing and assigning building maintenance, repairs and improvements to staff as necessary.
- Manages projects, in coordination with the Facilities Operations Superintendent, to include procurement, specifications and construction management.
- Performs maintenance and alterations on City buildings and facilities; identifies and evaluates construction-related problems; repairs and/or renovates structures; adds and demolishes walls; builds and repairs cabinets and counters; installs and repairs stairs; builds

storage units; installs and repairs ceiling tiles, floor tiles, linoleum and/or carpet; hangs doors; repairs and replaces sheet rock; repairs and patches roofs, paints and/or stains as necessary; and performs other related tasks.

- Performs maintenance on City electrical systems; repairs and replaces light bulbs and electrical fixtures; troubleshoots, repairs, and runs circuits; identifies circuits and calculates circuit loads; tests voltages, ohms, grounds, neutral and common wires; runs conduit; wires electrical circuits; writes specifications and standards for contracted work.
- Performs periodic maintenance to HVAC systems; identifies problems and performs minor repairs; troubleshoots and evaluates HVAC units for parts or unit replacement.
- Performs installation and repairs on plumbing lines and fixtures; replaces broken pipes, cleans plugged drains, replaces washers and gaskets, replaces faucets and valves, cleans grease traps, and flushes sewer lines; installs, maintains and repairs drains, water lines, hot water heaters and garbage disposals.
- Repairs block/brick structures, replaces grout and repairs cracks; patches cement, constructs forms and pours concrete for small jobs such as walkways or slab repair.
- Assists in a variety of carpentry and building tasks for City facilities; reads blueprints; creates specifications and job standards for small contracts; prepares cost estimates for new construction; monitors contractor work.
- Plans, schedules, and prioritizes assigned maintenance, repair and custodial work in consultation with Facilities Operations Superintendent; communicates status of projects to appropriate personnel in other City departments and divisions as necessary.
- Inspects structures; recommends special work required or necessary facility maintenance; obtains estimates for required services and materials as directed; assists Facilities Operations Superintendent in evaluating vendors.
- Maintains aquatics facilities and City pools; identifies chemicals necessary to ensure proper chlorination and circulation of the pools.
- Trains temporary employees in work methods, use of tools and equipment, and relevant safety precautions; oversees and assigns work.
- Orders needed supplies; ensures maintenance of an adequate inventory to accomplish assigned jobs.
- Assists in preparation of division budget; projects future needs; obtains cost estimates, submits justifications.
- Responds to emergency situations as necessary.
- May perform custodial duties involving the care, maintenance and cleaning of City buildings and related facilities.
- Performs other duties as assigned.
