

**STATEMENT OF CANDIDATE FOR  
ROCKLIN CITY COUNCIL**

**JOE PATTERSON**

**Occupation: Rocklin City Councilman/Business Owner**

**Education and Qualifications:** For the past four years, I have considered it my personal responsibility to represent residents and families on the City Council. This means working to enhance transparency, accountability, and a fiscally responsible city that prioritizes public safety, beautiful parks, and the creation of job centers for our residents.

I have worked tirelessly to be your voice on the council. While serving as Mayor, I led an effort to reduce electric rates by replacing PG&E and, after hearing concerns about speeding, proposed a resolution to create a Citizen's Traffic Safety Committee. During my term, we have delivered balanced budgets while investing in a safer community, building more parks, increasing open space and resolving some of our most difficult issues (such as the former Rocklin Golf Course). I am most proud to have increased transparency at City Hall while ensuring residents know about neighborhood development projects.

If you re-elect me, I'm committed to joining with you to continue muchneeded improvements for our great city. If you trust me with your vote, I pledge to exceed your high standards with complete honesty. It would be an honor to keep working for you. If you have questions, please call me at 916-833-0787.
